New Equestrian Organization Formed in Northern Virginia

Courtesy of Diane Hutchinson www.NOVAWE.org

Northern Virginia supports many communities laden with horses and equine activities making the area perfect for the addition of the new Northern Virginia Working Equitation (NOVAWE) organization. NOVAWE is a new non-profit member organization with a mission to promote growth of the exciting Working Equitation (WE) equestrian sport through education and mounted events. WE has origins in European and South American ranch work, and the sport welcomes all breeds and disciplines to participate in its dressage-based approach to arena obstacle execution.

The best part about learning WE is it's fun for both horse and rider and therefore a favorite for cross training all horses, from trail horses to Grand Prix dressage horses and top jumpers, as well as Western style horses. The mental challenge of obstacle work provides the horse a welcome change from his regular work – most horses embrace the obstacles happily.

While WE is prevalent on the West Coast, its popularity is spreading East and NOVAWE organizers Biddie Lowry, Gainesville, VA, Diane Hutchinson, Leesburg, VA, and Laura Guillaudeu, Hillsboro, VA are teaming to help the sport's growth along.

NOVAWE President Biddie Lowry on Oliver Red Tari

(Continued on page 7...)

"My horse, who I compete in lower level United States Dressage Federation (USDF) dressage schooling shows, loves to walk into an arena and see the WE obstacles," said Hutchinson. "Her ears go up, and I know she is thinking 'Oh boy, obstacles, fun!'" Hutchinson has competed in two rated WE shows, but both were over a three-hour distance away. She is anxious to help grow the sport right here in her Loudoun County and the surrounding areas. "With such a large and active sport horse community where we live, we can support and offer numerous WE events locally.

Andy Guest State Park Monthly Ride Report

Left to right: Marcy Heacker, Lora Riggins, Beth Giorgiani, Caroline Chipman, Melissa Lee, Katie McDaniel

After 18 months of what seemed like non-stop rain, extreme temperatures and schedule conflicts, CHS finally had a beautiful day for our trail ride at Andy Guest, Shenandoah River State Park. Temperatures were in the 70s, skies were partly cloudy, and six riders met to enjoy the trail along the Shenandoah River in Bentonville, VA. We could not have asked for a more perfect day. There are two trails; one that goes up the mountain and another that meanders down by the river. We opted for the trail by the river. It starts in the woods, winds down to the river, follows the river for a bit, then loops back around. It is well maintained and was in excellent condition, though a bit rocky in places. The ride took approximately 2 hours at a walk, during which we encountered some very courteous hikers, bikers and other trail riders. The ride also allowed me the opportunity to have some wonderful chats with the

other riders, some of whom I had not previously met. Conversations continued as we settled in for lunch at Beth Giorgiani's trailer, which had an awning perfect to shade us from the sun. If you have not had the opportunity to check out the trails at this park, I highly recommend adding it to your list.

NOVAWE will provide opportunities to learn not only how to navigate the 22 different WE obstacles, but also to understand the ample rules of WE. NOVAWE offers those just interested in improving their horsemanship and precision through WE practice opportunities through its introduction events and Play Days.

For those that develop ambitions for WE competition, NOVAWE will prepare members for the three phases of trials. First is to ride a WE dressage test, followed by an area obstacle course where each of at least 10 obstacles, and the transitions between them, are scored with value between 0 -10, plus collective marks. A third trial is the obstacle course ridden for speed, fastest time wins, penalties get converted to seconds. (Read the full press release at <https://novawe.org/2019/08/01/press-release/>)

A CCI3* with Bad Eventer

By Katie McDaniel

Bad Eventer and Zima aka Zebrasaurus on XC

Blogs have become a popular way for riders to chronicle their journeys with their horse and share their stories with others. A couple of years ago, I stumbled upon a blog titled “Tales from a Bad Eventer”. Bad Eventer started TRYING to 3-day event as a young child, and has continued for, cough, decades being BAD at Eventing. She was based in Texas and recently relocated to Florida to follow her dream of competing in the Land Rover Kentucky Three Day Event. She is currently competing five horses at various levels and chronicles her story, with plenty of self-deprecating humor, in her blog at BadEventer.com. I highly recommend checking it out.

On July 5-7, Loch Moy Farm hosted the Maryland International + Horse Trials, which included the CCI3*-S that the U.S. Eventing Team used as their final preparation event for the 2019 Pan American Games in Lima, Peru. Bad Eventer decided this would be a good chance to compete two of her horses at the CCI3* level, and since she was coming up all the way from Florida, why not bring and compete all five of her horses?

After thinking things through, she put out a plea on social media for some extra help at Loch Moy. Having followed her blog for so long and always looking for an excuse to head up to Loch Moy, I jumped at the chance to help! Saturday was the day she needed the most help with nine scheduled rides between all three phases on four of her horses. I arrived around 9:30 to help with the vet box for the two horses she was running in the CCI3*, Quatar Z (aka Zima or the Zebrasaurus) and Atrax Robustus (aka Spiderwoman). After hanging out in warm up (and desperately trying to keep my fangirling to myself about being five feet away from Boyd Martin/Tsetserleg and Lauren Kieffer/Vermiculus), Bad Eventer headed out onto the XC course with Zima and we headed to the vet box with everything ready to cool Zima down after his XC run for his TPR check. Unfortunately, Zima decided he was done at the giant drop just a few jumps in (for which I can’t say I blame him – it was huge!), so we skipped the full vet box experience for him and headed back to the stalls to get Atrax ready for her XC run. They successfully completed the course together and Atrax quite enjoyed being doted on and sponged down with cold water afterward.

I wasn’t able to stay all day but caught Toxicodendron’s (aka Poison Ivy) show jumping round followed directly by XC. I had to leave before BadEventer wrapped up with the final horse of the day, Fizz (aka Foxy Cleopatra). Her fifth horse, a product of

BadEventer and Atrax Robustus aka Spiderwoman on XC #pinksotheycanfindthebody

Toxicodendron aka Poison Ivy’s show jumping

her breeding program named Viper (aka Starbuck or VelociT), would compete at Novice on Sunday.

I have never competed or had the chance to volunteer for an event at this level of competition, so, it was a learning experience. The amount of preparation that goes into these events for both the rider and the horse is humbling and requires either pure dedication or insanity or maybe a little bit of both. It is also a wonderful, supportive community where local competitors have a chance to chat with Olympians in the warm up ring and men and women compete as equals. I only hope my next horse likes the sport a little bit more so that I have another opportunity to immerse myself in this awesome community. #goeventing

THE CLIFTON HORSE SOCIETY (CHS) was established in 1977 to serve the needs of those interested in horses in Fairfax County & surrounding areas. Most club members are horse owners, but membership is open to all who want to see that horses continue to be a part of the future of this area of Virginia, as they have been in the past. CHS is a 501(c)(3) non-profit organization. Donations to CHS are tax deductible on your Federal taxes.

Membership for a year is: Individual \$20 and Family \$30. Membership for two years is: Individual \$35 and Family \$55. Anyone joining October thru December pays reduced rate. This includes a subscription to CHS' monthly newsletter, Lead Line. Membership runs April 1 through March 31 of the following year.
